

1-Day Onsite Installation and Startup Training

Get your Tobii Eye Tracking System up and running

This one-day training program will assist you to learn how to operate the eye tracking equipment and startup with eye tracking as a research method. All trainings are held at a location of your choice, e.g. your office or lab. We currently offer a one day installation and startup training conducted by a Tobii Certified Instructor. Prior to the training date, our instructor will contact you to assess your training needs and prepare the curriculum for you.

Topics covered

This training is a one day onsite installation of a Tobii Eye Tracker and Tobii Studio where you and your team will gain a basic understanding of the eye tracking system and learn how to operate the system and the software.

This is a brief summary of the most important training activities.

- Teach you how to assemble and install your eye tracking equipment.
- Give you a general understanding on how to operate the eye tracking system.
- Instruct you to collect good quality eye tracking data.
- Give you an overview of the major features in Tobii Studio that are relevant to your field of research.
- Practical hands on experience with the eye tracker and eye tracking software.
- Receive a personal Certificate of Attendance.
